EDUCATION

B.S., Computer Science (AI Concentration)

Wilmington University

Expected May 2028

New Castle, DE

- Certifications: AI Engineer for Developers Associate and SQL Associate (DataCamp, 2026); Software Engineering Job Simulation (JPMorganChase via Forage, 2026); AI Fluency Framework and Foundations (Anthropic, 2026)

EXPERIENCE

ENTURK

Chief Technology Officer, TurkNode (nodeenturk.org)

May 2025 - Present

New Castle, DE

- Own architecture and delivery of TurkNode, an AI volunteer-matching platform pairing volunteers with local community projects, live at nodeenturk.org.
- Built semantic matching with OpenAI embeddings over PostgreSQL + pgvector, spanning a Next.js dashboard, Node.js orchestrator, and Flask intelligence service with Firebase auth.
- Shipped the public landing, volunteer and manager dashboards, and Stripe-ready tiers; migrated hosting to Vercel with a custom domain and audited the platform to 100% real production data.

nkae

Founder (nkae.study)

2026 - Present

New Castle, DE

- Built and launched an AI study app that turns notes into summaries, flashcards, and quizzes with GPT-4o, then schedules review with spaced repetition; live at nkae.study.
- Full stack: React, Express, Drizzle ORM, Neon Postgres, Firebase Auth; deployed on Render with a custom domain; designed the complete brand identity (nkae is Twi for remembrance).
- Recovered and productionized a broken prototype: replaced Replit-locked auth with Firebase token verification and rebuilt the entire data-access layer.

Shedar Services LLC

Mobile Developer (Contract) - TCC Field Layout Pro

May 2026 - Present

Remote

- Sole developer of a Flutter MUTCD work-zone calculator for traffic-control crews; live on the Apple App Store and Google Play with a 5.0-star App Store rating.
- Computes taper lengths, buffers, and breakaway device spacing from posted speed and road class per MUTCD Table 6C-1, and renders interactive lane-closure diagrams with PDF export.

MEND Journey, Inc.

Sole Developer & Technical Lead (Contract)

Jul 2026 - Present

Delaware

- Built the women's health nonprofit's full digital presence: mendjourney.org (Astro 4, Decap CMS, Netlify) with git-based content editing so the founder updates events without code, plus the consulting arm's animated landing at mendjourney.llc.
- Automated event registration: Netlify Forms trigger serverless functions that send branded confirmations via the Resend API on a verified domain (SPF/DKIM).
- Designed a WCAG-audited brand system and a Node + docx pipeline generating letterheaded, watermarked grant proposals and contracts.

Freelance

Full-Stack Developer - Client Platforms

Apr 2026 - Present

US & Ghana

- First Choice Realtors (firstchoicerealtors.estate): Ghana real estate platform with verified listings, interactive map search, live currency conversion, mortgage calculator, and agent authentication.
- ICGC Exaltation Temple (icgcdelaware.org): designed and shipped the church's full website.
